the aim of this book is to provide a fresh wider and more compelling account of democracy than the one we usually find in conventional contemporary political theory telling the story of democracy as a broad societal project rather than as merely a political regime frega delivers an account more in tune with our everyday experience and ordinary intuitions bringing back into political theory the notion that democracy denotes first and foremost a form of society and only secondarily a specific political regime the theoretical shift accomplished is major claiming that such a view of democracy is capable of replacing the mainstream categories of justice freedom and non domination in their hegemonic function of all encompassing political concepts frega then argues for democracy as the broader normative framework within which to rethink the meaning and forms of associated living in all spheres of personal social economic and political life drawing on diverse traditions of american pragmatism and critical theory as well as tackling political issues which are at the core of contemporary theoretical debates this book invites a rethinking of political theory to one more concerned with the political circumstances of social life rather than remaining confined in the narrowly circumscribed space of a theory of government

this book constitutes the proceedings of the 17th asian symposium on programming languages and systems aplas 2019 held in nusa dua bali indonesia in december 2019 the 22 papers presented in this volume were carefully reviewed and selected from 50 submissions they were organized in topical sections named invited papers types program analysis semantics language design and implementation concurrency verification and logic and automata

fully revised and thoroughly updated the second edition of planning and urban change provides an accessible yet richly detailed account of british urban planning stephen ward demonstrates how urban planning can be understood through three categories ideas urban planning history as the development of theoretical approaches from radical and utopian beginnings to the new right thinking of the 1980s and recent interest in green thought and sustainability policies urban planning history as an intensely political process the text explains the complicated relation between planning theory and political practice and impacts urban planning history as the divergence of expectation and outcome each chapter shows how intended impacts have been modified by economic and social forces this second edition features an entirely new chapter on the key policy changes that have occurred under the major and blair governments together with a critical review of current policy trends

this extraordinary little book has the power to heal and foster relationships console and empower individuals create community and help save the world by providing a spiritual ecology for our daily lives think that s a bold claim it is but it s also true we can all be generous with our money when an occasion like christmas rolls around or when disaster strikes as it did with the boxing day tsunami of 2004 but lucinda vardey and john dalla costa say that this kind of giving segregates generosity and makes it a special activity only for special times if we re truly going to help this troubled world as individuals we must investigate other possibilities for being generous as well by helping those we interact with every day our children colleagues parents friends and the homeless men and women we encounter when out and about in our cities we learn that the four most generous words in the english language are i m sorry and thank you we learn that if we ask what do you need we may be surprised how readily we can provide assistance and how a single generous act may turn into something that circulates to include many lucinda and john are a married couple who have committed they say humbly and imperfectly to making generosity a central practice in their daily lives what they refer to as their art of right living within family work and community is both a mode of being and a value that infiltrates all others generosity inspires and guides them and continually tests and teaches them this book is filled with true stories they ve collected about generosity in action being generous is their gift to readers written to enable and encourage us to follow the generous way she was famous for her work with the poor in the streets of calcutta one day a beggar by the road ran up to her with a small coin financially worthless to anyone but him it was his day s take on a long hot and humid day and he wanted to give it to her she pondered what to do if she took the money then he would have nothing at all but if she rejected him it would not only hurt him but insult his generosity she stretched out her hand he who never had the chance to give could give to mother teresa the joy on his face said everything to her the lesson saying no to another s offer denies them the joy of giving accepting what they wish to give even if you don t need it is what practising true generosity is about from being generous

lowell l bennion is legendary in many circles an lds institute instructor and professor of sociology at the university of utah he was never content simply to quantify social ills or to preach against them but actively set out to correct what he could he founded and directed the teton valley boys ranch served as executive director for the salt lake city community services council and organized other charities his heart was with the

underprivileged he detested pharisaism and often quoted biblical passages on the topic adapted to a mormon ear as your treading is upon the poor i hate i despise your fast days and i will not dwell in your solemn assemblies take thou away from me the noise of thy songs for i will not hear woe unto them that are at ease in zion bennion passed away in 1996 just after this biography was released leaving an enormous void where he had been a beacon to humanitarian and liberation causes in his community

the rapid expansion of the internet has fueled the emergence of electronic government at all levels in canada e government's first decade featured online service underpinned by a technically secure infrastructure this service security nexus entails internal governance reforms aimed at realizing more customer centric delivery via integration and coordination across departments and agencies yet as online networking has become more pervasive and public demands for participation rise pressures for greater openness and accountability intensify the result is widening experimentation with online democracy the e governance focus is thus shifting toward issues of transparency and trust and new possibilities for re conceptualizing how power is organized and deployed in sum the prospects for digital transformation involve the interplay of these four dimensions service security transparency and trust this book identifies the main drivers of e government assesses the responses of canada's public sector to date and sketches out the major challenges and choices that lie ahead the findings will be of interest to those studying or working in the world of public sector management and e governance published in english

this book attempts at cosmic whole approach challenging the established international relation theories based upon a newtonian and cartesian world view from an ecological perspective the realist liberal critical and post modern theories have been critically examined in their materialist premises with much of the inputs from the ecological insight eastern philosophy and the new paradigm thinking in the field of science

the marranos were former jews forced to convert to christianity in spain and portugal and their later descendents despite economic and some political advancement these conversos suffered social stigma and were persecuted by the inquisition in this unconventional history yirmiyahu yovel tells their fascinating story and reflects on what it means for modern forms of identity he describes the marranos as the other within people who both did and did not belong rejected by most jews as renegades and by most veteran christians as jews with impure blood marranos had no definite integral identity yovel argues the judaizers marranos who wished to remain secretly jewish were not actually jews and those marranos who wished to assimilate were not truly integrated as hispano catholics rather mixing jewish and christian symbols and life patterns marranos were typically distinguished by a split identity they also discovered the subjective mind engaged in social and religious dissent and demonstrated early signs of secularity and this worldliness in these ways yovel says the marranos anticipated and possibly helped create many central features of modern western and jewish experience one of yovel's philosophical conclusions is that split identity which the inquisition persecuted and modern nationalism considers illicit is a genuine and inevitable shape of human existence one that deserves recognition as a basic human freedom drawing on historical studies inquisition records and contemporary poems novels treatises and other writings this engaging critical history of the marrano experience is also a profound meditation on dual identities and the birth of modernity

are apostles amongst us today according to a growing section of the church the answer is yes this book investigates and appraises the idea seeking answers to the following questions in the context of the church in britain and the usa is there a robust scriptural justification for the charismatic apostolate ca that most charismatic groups are proclaiming how widespread is this belief and why has it become more commonplace

what kind of apostles are being advocated by influential popular teachers what does church history and tradition have to offer to this idea is there a way to endorse and embrace the ca ecumenically does the ca have a future in the universal church these are important questions to answer for the sake of the church s mission and health
